To whom it may concern,

I am writing this letter on behalf of Aarons Concrete Pumping and their President Tracey Rhoten.

Aarons Concrete Pumping currently has an annual agreement with our company to provide concrete pumping and supply of construction materials. Truthful, she won our business, in part, because of her Woman owned business status. But since being awarded our work, she and her employees have earned our business based on their merit.

The current economic conditions have forced us to pursue state and federal contracts. These contracts require that a large percentage of our contract sum be awarded to minority and woman owned business. It is difficult to find competent minority and woman owned business that are able to perform on the size of construction projects that we under take. Aarons Concrete Pumping, Inc is an example of a successful, well run company by a very competent leader, Tracey Rhoten. Based on the professional manner in which Aarons employees and equipment perform on our projects, they can count on our continued support over the coming years. We hope that you too will also see the value in supporting a woman owned business, as there is great potential for Aarons continued success in our construction market.

Should you have any questions, or need additional information, please don't hesitate to get in touch.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert J MacDaniels".

Robert J MacDaniels
President
